

## Performance and Computer Requirements

---

Dance Designer is a Windows-based program that runs on XP, Vista and Windows 7 operating systems. Dance Designer may work on computers that do not meet the minimum requirements below. We recommend that you download the free trial to test the performance of your computer.

The playback performance of your dance will depend upon the number of dancers, the number of recorded positions, the length of the dance, processing speed and memory of your computer.

Dance Designer is an intensive multi-media application. For optimum performance we recommend using Windows 7 and the computer requirements below.

### Minimum Requirements for PC and Mac:

- Microsoft Windows XP (SP3) Windows Vista (SP1) 32-bit or  
Or Windows 7 32-bit (64-bit OS must be run in compatibility mode)
- Microsoft DirectX 9 or later
- Microsoft.net 3.5 or later version
- Intel Pentium Dual Core 1.60Ghz processor minimum; Recommended: 2.0Ghz
- 1.0 MB of RAM minimum-- Recommended: 3.0 GB of RAM
- Minimum screen resolution: 1280 x 800 – Recommended 1920 x 1080

Dance Designer can also be run on a Mac OSX 10.5 computer using:

- Apple Boot Camp (<http://www.apple.com/macosx/features/bootcamp.html>)

### System Notes:

- Recording audio requires dedicated Windows-compatible sound card, microphone and speakers
- Recording video requires a USB Video Camera
